## **CONDITIONS OF SALE.**

**Please read Sale Terms Before Bidding.**

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within 30 days of the date of the sale.

Coins and medals are sold at so much per PIECE, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

**Important Notice.** We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. Our records are final.

It is a huge sale, offering a great variety of material, which, we think, puts our sales in the front rank, ahead of all others. There is literally something for everybody. It is not a circumscribed sale of limited interest. We invite you to attend the sale personally if at all possible to do so. Come and see the coins and other items for yourself. Each day's sale will be on view on date of that portion of the sale. If at all possible we will show a few lots in advance a couple of days before the sale starts. But it is extremely difficult to show material for advance days after the sale has started. Come and enjoy this great sale and see how our sale season for the winter of 1937 ends. No more sales of ours until April next, so take advantage of this supreme offering of all classes of coins. For cent collectors there are thousands and all dates; sets of cents and what not. No priced list can be issued of the sale. We find the expense does not justify it. In offering us coins for our sales, write us first, as we cannot accept small, unimportant lots for auction. Any consignments must make at least fifty or a hundred lots to be worth while for us to offer them. Don't forget. Sales since 1903. We are the oldest in the business today.

THE ELDER COIN & CURIO CORPORATION,

No. 8 West 37th St., New York, N. Y.

N. Y., December 5, 1936.

## **BIDDERS PLEASE READ THESE SPECIAL INSTRUCTIONS.**

This is a Sale at Auction, not an approval sale. Lots may not be returned without our permission. So don't return lots first without writing us. We find today a small number of irresponsible people bidding at sales, who pay no attention whatsoever to printed terms, but assume to make their own rules for all sales. These we will not tolerate. They will go off our mailing list. We have made over 300 catalogues of coins and feel we know fully as much about our business as newcomers who want to make their own rules for coin sales. The cataloguers are going to stand together on these irresponsibles and cut them out of sale bidding. They should be excluded and will be. We are willing to entertain a complaint, but its merit is up to us. So we ask bidders to read our printed terms. One man childishly returned a lot from our last sale for the reason that "the same coin was advertised for sale at a few cents less"—his reason for repudiating a lot knocked down to him. Every cataloguer in the country should have that man's name and address. He is unworthy of credit or notice. Errors in bidding on the wrong lot (and we have one or two at every sale) are up to the bidders and we cannot be responsible for such errors on the part of bidders.

Coins are catalogued by the natural eye, not with the aid of a big strong glass. Any defects which do not appear to the natural eye will not be noted in the catalog. That is how they have been catalogued by all the great authorities on coins, such as the Chapmans and others. That is how we rate them. We receive many letters from satisfied customers praising our gradings. New bidders must furnish us with gilt-edged reference or else send a check for 25 % of their bids along with the same.

Terms are spot cash. Remittances from absolutely new bidders are asked on receipt of a bill for the same in advance of the goods. Those who have established credit with us we will send the lots to in advance, but not to newcomers.

Write Mr. Elder for estimates on any lot in this very important sale, our last sale of the winter. He will gladly advise you of any lot's value.

## ANOTHER FINE LETTER OF ABRAHAM LINCOLN, 1863.

397. "My dear General Anderson.

54 - "I have been through the War Department this morning, looking up your case. Section 20 of 'An Act Providing for the better organization of the Military Establishment', Approved August 3, 1863, seems to leave no discretion to President, Secretary of War, General in Chief or anyone else. The General-in-Chief, however, says that, if agreeable to you, he will give you command of Fort Adams. I think at Newport, R. I., by which your pay will be the same as if this law did not exist. I advise you to try it at all events. Gen. Halleck advises it also.

Yours truly,

August 15, 1863.

A. Lincoln." Very fine.

A letter written throughout by the president himself.

### AN IMPORTANT RARE COIN-COLLECTION.

#### PORTION I.

**Note.**—This large and important coin collection, chiefly United States Coins, ranging from \$20, gold down to Half Cents, Has Been Turned Over to The Elder Coin & Curio Corporation to Offer For Sale "As it Shall See Fit." The Sale Will Be Absolute. Every Lot Will Change Hands At The Sales. It is Not a Portion of "An Important Coin Collection Belonging to a celebrated Brewer." It has Nothing to Do With That Collection. Nobody Has Seen This Collection Since 1908, And It Contains Some of the Most Celebrated of American Rare Coins. The Following Two Groups Only Will Give Collectors Some Idea of Its Importance. Two Groups Only Are Offered in This Sale. More in the April Sale.

**Take A Look At This Quarter Eagle Collection For Instance, Which Contains Nearly All The Big Rarities of the Philadelphia Mint.**

**Our Best Offering Since the Woodin Sale in 1911.**

## OBSERVATIONS AND COMMENTS.

### Wanted.

We want for cash Small Cents of S. & D. Mints, before 1925, Uncirculated. We are opposed to paying \$2.00 a coin for new, large issues of commemorative coins, plus 15 cents for postage per coin. We will refuse to patronize such "bargains" offered to collectors and coin dealers. In old days the top price was \$1.00 per coin, and even at that bargain price we see today Columbus half dollars selling at auction for face value to 55c per coin. This price on Columbus half dollars we regard as unjust and unmerited by the present supply of uncirculated specimens, which is in reality very small. We stand ready to pay over face for any uncirculated Columbus Half Dollar, to back up this statement.

### THE SOFT LIFE.

To the many apostles of the soft and easy life, let it be said that real men and women are not to be made through lack of experience, or even through lack of hard experience. Today many are trying to teach the doctrine of the fuller life through shortened work hours, through more hours of ease and through higher pay. Was that not exactly the theory of the early Roman emperors, those politicians who sought by doles and amusements to ingratiate themselves into public regard? What happened to Rome? One-sixth of its population was once on a dole. Did that soft and easy life help Rome? It did not. Rome failed and its luxuries, amusements, and idleness weakened its character and people and finally stronger, but wild and savage men overran Rome and destroyed it and its ease-loving people. Can it happen here? Well, read what Robert Browning said of this theory of luxurious ease for the masses. It went something like this:—"You cannot dream yourself a character. You must hammer and forge yourself one." Nothing of present day experimentation and social reform hints at that philosophy. The present trend is in the formula of Rome. Let reformers beware!

### WHAT OF US?

The Elder Coin & Curio Corporation, or its progenitor, was founded by Thomas L. Elder, its present head, back about 1895, over forty years ago. Mr. Elder joined the American Numismatic Association about 1897. His national number is 151. The membership is up in the thousands now.

He is one of the oldest living members of the American Numismatic Society. Have we had a small or large experience in the business? Well, our first auction sale was in 1903. We have copies of our original sale catalog. A. C. Gies contributed coins for that sale. He is still collecting coins. DeWitt Smith was a bidder. He bought the half dozen fine Pine-Tree coins offered in that sale, which came from the W. F. Clarke collection of Rhode Island. Since then we have held far more sales than any other living cataloguer. Our total number is well over three hundred sales and we are still going, stronger and faster than any other cataloguers in the business to-day. Surely that speaks for stability and progressiveness. We held one sale in 1929, brought almost \$50,000, and established many worlds records for coins, with one coin selling for \$7,900, and a second for \$7,000. Who can beat it? Nobody alive today. Besides being a member of the leading numismatic societies, Mr. Elder is an old member of the Historical Society of Penn'a, and of these societies:—Colonial Wars, Sons of the Revolution, Sons of the American Revolution. He joined the latter in 1896, over 40 years ago! We have had a big experience with coins. Nobody but an ignorant novice will question it, and at this time we still have as bidders several who bid at our first sale in New York, in September, 1905, over 31 years ago. Who has made all these catalogs? Why, Mr. Elder and no one else, although it has been charged at times that somebody else did our cataloguing, which is absolutely false. Mr. Elder is, moreover a charter member of the New York Numismatic Club and one of its three local honorary members.
